DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 11, 2008 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on May 28, 2008 was filed after the mailing date of the Final Rejection on May 12, 2008. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

Claims 1-21 and 25-39 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent Claims 1, and 11, the prior art does not teach or show a backlight assembly or liquid crystal display device comprising a light guide plate having an incident face being a first distance; a light reflecting member covering the light incident face that forms a lamp receiving space defined by the reflecting member and light incidence face; at least two lamps disposed in the light receiving space where the sum of diameters of the two lamps and a second distance separating the at least two

lamps is larger than the first distance and the light reflecting member comprising a chamfer located at an edge at which a virtual line passing through the centers of the lamps meets the reflecting member.

The closest prior art Torihara fails to teach or suggest having a chamfer disposed at the claimed position with respect to the two lamps. Suzuki discloses a chamfer formed on a reflective member of a similar backlight module but fails to teach or suggest positioning of the chamfer along an edge where a virtual line passes through two centers of lamps that disposed within the receiving space formed by the reflecting member. There is no motivation disclosed by the prior art to combine the two lamps and reflecting member of Torihara with the chamfer and further modifying the combination to have the chamfer reside at this edge as claimed to reflect light towards the incident surface of the light guide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Regarding Claims 21 and 25-39, the claims are allowable for the same reasons stated in the final office action mailed on May 12, 2008.
